Change Record	
Date	Content
2023.12.26	Update: the front suspension, camber and toe-in
2023.12.26	Update:the installation method of front hood
2023.12.26	Update: the installation method of license mounting plate
2023.12.26	Add a new cushion for option
2024.4.16	The four-seat front seat mounting bracket has been changed from monolithic to split, and the battery rack can be removed
2024.4.16	separately Optimize the mounting holes and fixing screws of the iron base plate to solve the problem of raised pedal skin;
2024.4.16	Speaker mounting plate holes lengthened to fit newer speakers
2024.4.16	Steering travel changed from 124mm to 108mm
2024.6.13	Add grease fitting to the steering rack and control arm rod end
2024.6.13	Widen the gap of the brake master cylinder cover and add a clamp to fix the soft oil pipe
2024.9.5	Update the frame part number, add process hole markings on the frame drawing, and optimize the bracket
2024.9.5	Optimize the brake pedal assembly, the installation dimensions are the same as before the change
2024.9.5	Process optimization and product number upgrade for some materials

2024.9.5	Updated the new golf bag rain cover assembly
2024.9.5	Update the new mold battery tray part number and replace the original material
2024.9.5	Add the warning label number for folding windshield
2024.9.5	Change the controller label, and the QR code scanning display content is changed to display the controller manufacturer's serial number
2024.9.5	Add tow kit as an option
2024.9.5	All models are equipped with positive and negative power cables for lithium battery controllers as standard; functional labels are added to all connectors on the main cable harness; the button switch is changed to an IP67 waterproof switch;
2024.9.5	All models add a standard CAN extension cable; E40/E40L/E60/E60L models add a camera extension cable that goes into the grab bar connection pipe
